

Dr. Fakher Frikha: Faculté des Sciences de Sfax (FSS), University of Sfax, Sfax, Tunisia

Fakher obtained his Ph.D. in 2011 from Ecole Nationale d'Ingénieurs de Sfax. (ENIS), University of Sfax. He works as an assistant professor in bioinformatics and biostatistics at FSS, Sfax. During his PhD, he has conducted research as a member of Laboratory of Biochemistry and enzyme engineering lipases (LBGEL), ENIS, Sfax. Since 2014, he integrated the Microbial Laboratory of Biotechnology and Engineering Enzymes (LBMIE), Biotechnology Center of Sfax (CBS), University of Sfax. His research is mainly in the field of structural bioinformatics and biostatistics: 3D structures molecular modeling of proteins, molecular dynamics, molecular docking, study of the structure-function relationship, methodology of experimental design.
